Green Card Fund Regional Center

Education Fund of America (EFA) is dedicated to creating the best public charter schools in the United States while providing EB-5 investors with a fast and secure path to U.S. citizenship.

EFA partners with Green Card Fund (GCF), an official USCIS EB-5 Regional Center.

Like EFA, GCF is part of the Bedford International family of companies and is a wholly owned subsidiary of Bedford Venture Group. Over the past 20 years, Bedford has provided billions of dollars in commercial real estate financing, with borrowers in all 50 states.

EFA and GCF work together to provide EB-5 investors a secure path to U.S. citizenship.

A Regional Center is defined by the USCIS as an economic entity involved with the promotion of economic growth, improved regional productivity, job creation and increased domestic capital investment. The organizers of a regional center seeking the “Regional Center” designation from USCIS must submit a detailed proposal supported by sound forecasting tools showing:

- How the regional center plans to focus on a geographical region within the United States. The proposal must explain how the regional center will promote economic growth in that region.
- How in verifiable detail (using economic models in some instances), jobs will be created directly or indirectly through capital investments made in accordance with the regional center’s business plan.
- The amount and source of capital committed to the regional center and the promotional efforts made and planned for the business project.
- How the regional center will have a positive impact on the regional or national economy.
