Testimonials

Education Fund of America (EFA) is dedicated to creating the best public charter schools in the United States while providing EB-5 investors with a fast and secure path to U.S. citizenship. Our collaboration work with American Charter Development and others has resulted in outstanding investor results, averaging less than 2-1/2 years return on investment for education projects.

We are confident that our knowledge and experience can help guide you in your process through EB-5 project investing. We are especially confident in our ability to provide you with a safe, secure and predictable EB-5 investment. Contact us for more information www.edufundamerica.com/contact/.

Capitalizing on our extensive investment and public charter school building experience and success, we have become the first EB-5 option to focus solely on this safe, secure and predictable investment.

"There are now more than 5,600 charter schools in the U.S. with a reported need of 4,000 more based upon enrollment wait lists. Our fourth charter school at The Odyssey Preparatory Academy is funded with nine EB-5 investors, coming from: China, Russia, Australia and Nigeria.

Many of the investors said they wanted to put their funds into an EB-5 project that will help improve America. They seemed to be socially conscience and they didn't want to fund just another restaurant, condominium, mall or office building. They perceived that funding our school was supporting a good cause – educating America's children.

We will be proudly placing each of the EB-5 investor names on the school "benefactors recognition plaque" and inviting the children in the Mandarin classes to correspond with them. We are very thankful to have international investors involved."

- Frank Yanez, Chairman of the Board, The Odyssey Preparatory Academy, Arizona

“You and American Charter Development have done a tremendous job for us. Thank you so much. When other development companies said it couldn’t be done, you assured us that it could be done. Although we were on an accelerated timeline, your team met every deadline.

We love the design of our campus and more importantly ALL of our students and their families love the design of our school. The design functions perfectly for our academic classes, and a wide variety of athletic activities. The attractiveness of our campus has been a huge reason that we are at full enrollment and have been able to fill the school to capacity our first year of operation.”

- Carolyn Sawyer MA, Principal Champion Schools, Arizona
